

GEYSERS . GLACIERS . WATERFALLS . BEACHES

1. Golden Circle

After the thrills of Reykjavik's posh eateries and charming center, it's time to escape to the rugged wilderness. Trek through steam vents and mud pots as lava-fed geysers erupt. Feel the thundering power of the Gulfoss Waterfall and visit the unusual open-air Parliament which sits in a rift valley where two tectonic plates drift gradually apart.

2. Inside the Glacier

Next, you'll board an 8-wheel glacier truck to make your way through the icy blue tunnels and caves of the Langjokull Glacier. Deep inside the frozen labyrinth admire fjords and waterfalls as you learn of the effects of global warming on the landscape and watch as the ice melts and transforms before your eyes.

3. South Coast & Waterfalls

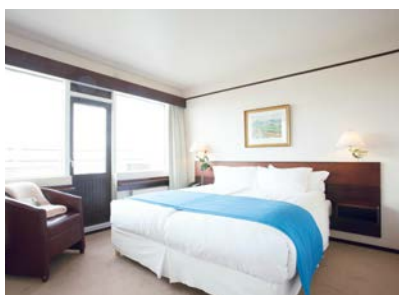

Our final Icelandic adventure continues along the South Coast to the pebbled sands of the island's black beaches. Stand alongside the force of mighty waterfalls and see the towering sea stacks that rise from the sea where puffins frolic in the waves.
